Tour 1: Canals, Georgians & Victorians and the modern city

The canals, Georgian and Victorian Birmingham. Twentieth century architecture, the city you can see today including an understanding of current developments and where the city is going.

Tour 2: In the footsteps of Sir Edward Burne-Jones

A great walk through the heart of the city. Also includes an appreciation of the Birmingham-born artist Sir Edward Burne-Jones as well as the public art and architecture all around us. A second fantastic introduction to the city.
